Built to connect.

Device specifications, platform features and connection options.

SENSOR SPECIFICATIONS

Communication	**NB-IoT (B3, B5 and B8) or Wi-Fi (2.4GHz)**
Power	**Replaceable battery**
Dimensions	**86 mm x 86 mm; height 38 mm**
Weight	**320 g without battery**
Protection	**IP63**

PETIT CAISSON

- Real-time device status
- Optional email, SMS and mobile app alerts
- Optional API to Modbus and BACnet hosts
- CSV data export

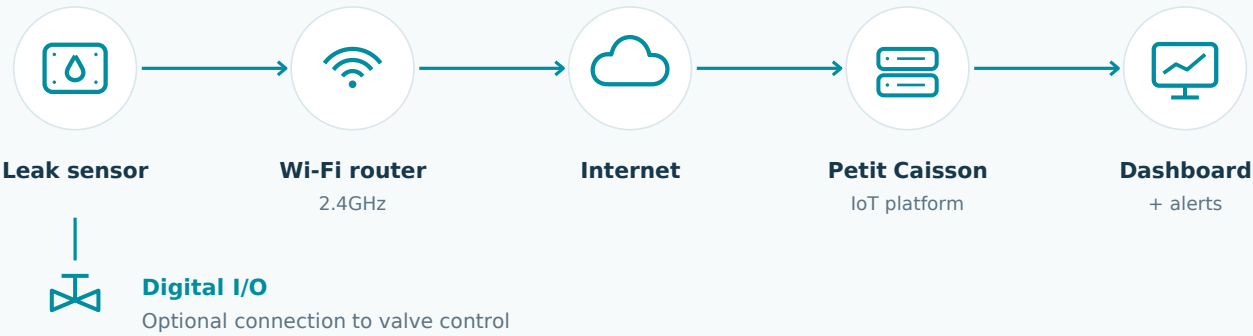
Two ways to stay connected

01 Standalone monitoring

NB-IoT

02 Optional valve control

WI-FI



Specifications are subject to change without notice. Optional functions require the relevant interface, service or integration.
