

Smart Door Contact

Wireless Security, Powered by Innovation

Experience next-generation protection with our wireless, battery-powered smart door contact sensor. Engineered for contemporary homes and businesses, it delivers seamless access monitoring and instant push notifications directly to your smartphone whenever a door or window is opened or closed—keeping you informed and in control, 24/7.

Smart Door Contact

Work with Petit Cassion IoT platform enables users to receive real-time alert notification

PRODUCT ADVANTAGE

Battery Operates

Wireless Connection

Instant Alerts

Features

- **Easy installation**
- **Best QoS wireless network in IoT**
- **Optional notification IoT device**
- **Optional SMS and Apps notification**
- **Optional API for different ecosystem**

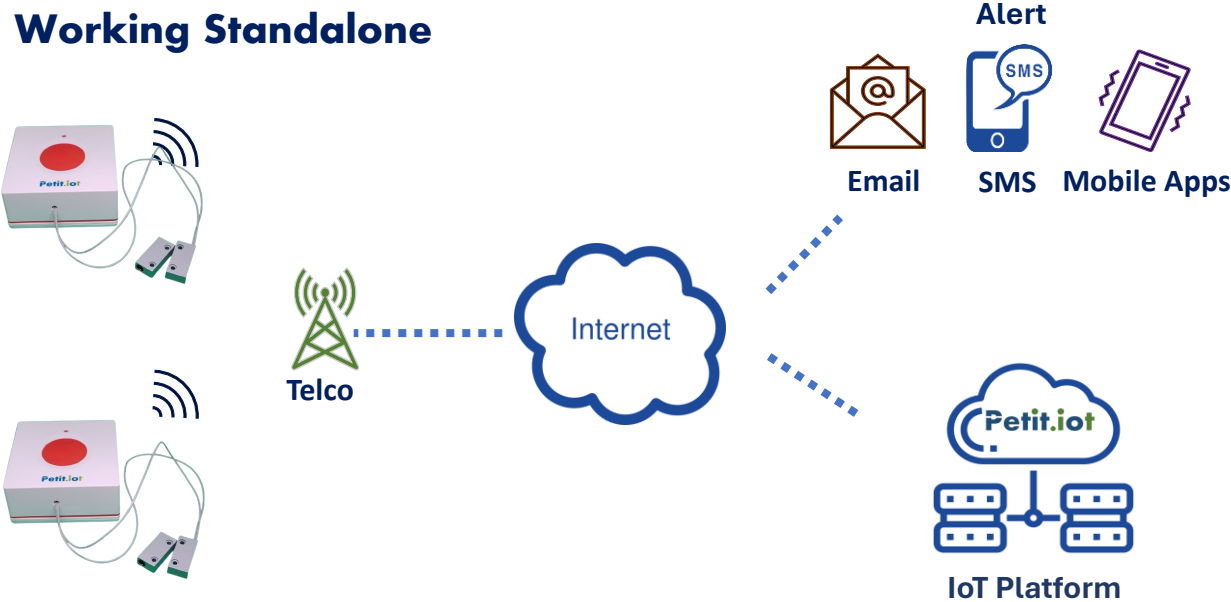

Specification of Smart Assistant

Communication support	NB-IoT (BAND B3 ,B5 and B8)
Power	Replaceable battery CR123A
Dimension	86 mm x 86 mm x 34 mm
Weight	120g without battery
Protection	IP65

IoT Platform

- Provide real-time device status
- Alarm alert, an email notice is the default, SMS and Apps are optional
- Optional API for different ecosystem
- CSV data export

Working Standalone

Working with Smart Alarm Station
