Smart IoT Water Leakage

Enable with Petit Cassion IoT platform, provides real time status and alert

PRODUCT ADVANTAGE

Battery operates

Wireless connection

Real time alert

- Real time reports status to IoT Platform *Petit Caisson*
- Replaceable battery operates
- Optional cable interface model for water sensing cable connection
- Optional valve control device with leakage monitoring
- Supports NB-IoT, LoRa and Wi-Fi communication protocol

 **High Talent**

Green Technology

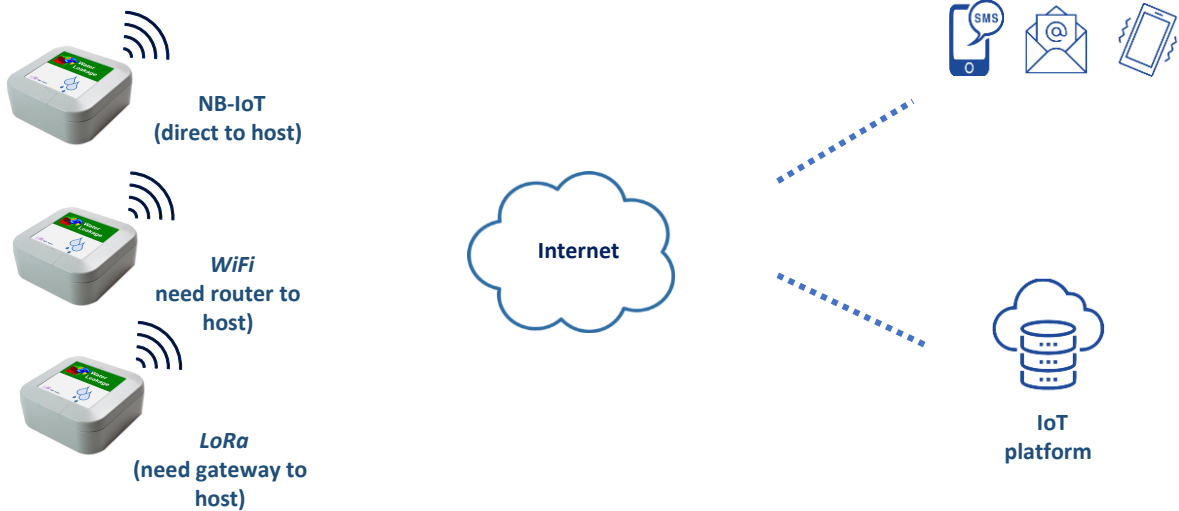

Specification of IoT Leakage

Communication support	WiFi, NB-IoT and LoRa
Power	Replaceable battery
Dimension	100mm x 100mm, height 40mm
Weight	120g without battery

IoT Platform

- Provide real-time device status
- Email alerts, SMS, and WhatsApp alerts are optional
- Optional API to Modbus and BACnet hosts
- CSV data export

Working Standalone

Working with Valve Control
